Subj: Septic system at 100 Autumn Dr, Tilton

Aug. 28, 2017

To whom it may concern,

This letter is to inform you that the septic system at the above mentioned property has been inspected and as a result we are designing a replacement system to be submitted to the town and state for review and approval. This plan should be ready for review on sept 7 2017. The owner of the property feels that the proactive approach taken will save time and money if or when ever the septic system should fail. The current condition of the system is in my opinion, "fair" but not excellent.

A new design would ensure that the septic system conforms to the current regulations for the projected and or the current use of the building.

Thanking you in advance,

A handwritten signature in blue ink, appearing to read "Grant N. Jones". The signature is fluid and cursive, with a long horizontal stroke at the end.

Grant N. Jones NHDES 487
